

COLOR CHART 2024

The choice of upholstery color plays an important role when decorating your practice or treatment room. Colors help you create an ambiance so you enjoy your work every day and so your patients feel the confidence and professionalism when entering the room.

You can choose from a wide selection of colors and easily find the one that perfectly matches the other furnishing in your practice. The top-quality imitation leather is highly resistant to disinfectants, salt water, UV rays, microorganisms and mold. Its elasticity and flexibility ensure comfortable patient positioning during treatments.
